## Crack the safe and find the treasure.

An old safe was dropped off at your home by an unknown person. A note was attached to the safe. This note contains clues that will help you to find the treasure.

Dear Relative,

This safe is part of our family treasure. It contains a list of clues. Over the years I have been trying to solve these clues so that I could find the treasure, but I've run out of time.

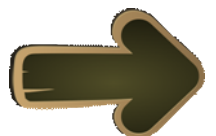

Perhaps you can use the Internet to help you figure out the clues.

Good luck!

Sincerely,

*A Relative*
